01 • OVERVIEW

What This Proposal Covers

This is the revised and final version of the proposal, rewritten against your feedback. Everything listed below is **inside the ₹23,000 price. Every item previously marked Future is now included** — the Letterhead Foundation, the HR Letters Pack, the Sales & Finance Pack, Combined Leave and the remaining documents are all part of this scope at no separate quotation. Everything is built inside the ERP you already run — same login, same roles, same database, same reports engine.

MODULE A

**Performance
KRA / KPI**

MODULE B

**Operational
Trackers**

MODULE C

**System
Enhancements**

MODULE D

**Documents
& PDF Pack**

A Performance Management — KRA & KPI

- A full performance management system replacing the current simple text-based appraisal inputs
- KRA and KPI masters, goal assignment, performance cycles and an approval trail
- Self assessment, manager assessment and HR moderation with evidence upload
- Automatic scoring, performance bands, bell-curve distribution and reward recommendations
- Two dedicated dashboards, thirteen report types and eight automated notifications

B Operational Trackers

- **Break Sheet Tracker** — employee break in/out with auto-calculated duration
- **Diesel Tracker** — fuel bills, quantity, amount and slip uploads against a monthly budget
- **Daily Visitor Tracker** — office visitors and interview candidates with source tracking
- Each with its own analytics view, Excel import/export and monthly / date-wise / yearly filters

01 • OVERVIEW (CONT.)

Enhancements & Documents

C System Enhancements

- Super Admin identity masked as “System Admin” in the activity log — **confirmed as required**
- **Bulk payslip delete** — clear a wrongly generated or wrongly calculated payroll run in one action, or employee-wise
- Leave application blocked when the employee has no paid balance left — **included at no additional charge**

D Documents & PDF Pack — 42 documents

- **Payroll & Statutory** — Form 16, PF / ESI / PT register, bank transfer advice, salary register, bulk payslip download
- **Attendance & Leave** — muster roll, daily attendance report, leave card, leave sanction slip, regularization slip, comp-off approval slip
- **Reports & Modules** — five HR report PDFs, budget vs actual, helpdesk report, CRM pipeline report, Report Builder export, reimbursement voucher, requisition note, service job card, asset gate pass, depreciation schedule
- **HR Letters** — appointment, confirmation, experience, relieving, salary certificate, warning, show-cause, ID card, full & final settlement
- **Sales & Finance** — sales order, payment receipt, GRN, delivery challan, customer and vendor statements, stock ledger, credit / debit note
- **Letterhead Foundation** — shared letterhead and footer, signature and seal upload, amount in words, DRAFT / PAID / CANCELLED watermarks

Included at no additional cost — as a trusted partner. The **Leave Balance Gate** is built into this price at your request, with no charge added. Three further items from your list are **already built and live** — the mid-month **budget top-up trail with the exact sanction date, budget edit & delete**, and the **receipt / UTR screenshot upload** on Record Payment. You are not being charged for any of these.

Nothing is deferred any more. The Letterhead Foundation, HR Letters Pack, Sales & Finance Pack, Combined Leave, the Comp-off Approval Slip and the five remaining report documents — every item earlier marked **Future** — are now **brought into this proposal and delivered inside the ₹23,000**. They are itemised on Page 13. Nothing is left for a later phase and nothing will be quoted separately.

MODULE A · PERFORMANCE

Dashboards, KRA & KPI

The foundation of the module — what management sees at a glance, and the master data that everything else is scored against.

1 Admin Dashboard ADMIN · HR

- Total Employees, Active KRAs and Active KPIs at a glance
- Pending Goal Approvals and Completed Reviews counters
- Average Performance Score across the organisation
- Department-wise performance comparison chart
- Top Performers and Low Performers lists
- Upcoming Review Dates calendar

2 Employee Dashboard EMPLOYEE

- My KRAs and My KPIs with live progress percentage
- Achievement Score against assigned targets
- Pending Reviews and Manager Feedback inbox
- Performance Trend graph across past cycles
- Rewards & Recognition earned

3 KRA Master — Key Result Areas ADMIN · HR

- Fields: KRA Name, Department, Designation, Description, Weightage, Review Frequency, Manager, Status, Start Date, End Date
- Review frequency options — Monthly, Quarterly, Half-Yearly, Yearly
- Multiple KRAs per employee with a live weightage validator (must total 100%)
- Example set-up: Sales Growth 40% · Customer Satisfaction 20% · Team Collaboration 15% · Learning & Development 15% · Attendance 10%

4 KPI Master — Key Performance Indicators ADMIN · HR

- Fields: KPI Name, Related KRA, Measurement Unit, Target Value, Achieved Value, Weightage, Score Formula, Status
- Measurement units — Number, Percentage, Currency, Hours, Rating
- Multiple KPIs under a single KRA (e.g. Sales Growth → Monthly Revenue, New Customers, Repeat Customers, Conversion Rate)
- Automatic score calculation from target vs achieved, per the configured formula

MODULE A · PERFORMANCE (CONT.)

Assignment, Cycles & Assessments

5 Goal Assignment ADMIN · HR · MANAGER

- Cascade assignment — Admin → Department → Designation → Employee
- Direct assignment to one or many specific employees
- Bulk assign a KRA set to an entire department or designation in one action
- Copy goals forward from the previous cycle

6 Performance Cycle ADMIN · HR

- Configurable cycles — Monthly, Quarterly, Half-Yearly, Yearly
- Cycle open / lock control so scores cannot be edited after finalisation
- Automatic cycle roll-over with review due dates

7 Approval Workflow

- Escalation trail — Employee → Manager → HR → Admin
- Each stage records who acted, when, and their remarks
- Send-back-for-revision at any stage
- Pending-at-my-desk queue for every role

8 Self Assessment EMPLOYEE

- Employee enters Achievements, Challenges, Learnings, Future Goals and Comments
- Evidence upload — PDF, PNG and JPG attachments against each KRA
- Saved as draft until submitted; locked once it moves to the manager

9 Manager Assessment MANAGER

- Rating on a 1-5 scale — 5 Outstanding, 4 Exceeds Expectations, 3 Meets Expectations, 2 Needs Improvement, 1 Poor
- Feedback, suggestions and comments per KRA
- Promotion recommendation and training recommendation flags

10 HR Review HR

- Moderate manager ratings where they are out of line with the department
- Verify performance against attendance, penalty and warning data already in the system
- Finalise the score and generate the appraisal record

MODULE A · PERFORMANCE (CONT.)

Scoring, Rewards & Reports

11 Final Score Formula

- Weighted calculation across all KRAs — $(\text{Sales} \times 40\%) + (\text{Attendance} \times 20\%) + (\text{Behaviour} \times 20\%) + (\text{Learning} \times 20\%) = \text{Overall Performance \%}$
- KPI scores roll up into their parent KRA automatically
- **Formula and weightages fully configurable — per department or per individual employee — with no code changes**
- **Bulk configuration screen** — set or revise weightages for many employees at once, and import them from Excel, instead of editing one employee at a time

12 Performance Bands & Bell Curve

- Score-to-band mapping — 95–100 Outstanding · 85–94 Excellent · 75–84 Very Good · 60–74 Good · 40–59 Needs Improvement · Below 40 Unsatisfactory
- Optional bell-curve distribution — Outstanding 10% · Excellent 20% · Good 50% · Average 15% · Poor 5%
- Band thresholds editable by HR

13 Rewards — Auto Recommendation

- System suggests Salary Increment, Bonus, Promotion, Training or PIP based on the final band
- Recommendations feed directly into your existing appraisal and increment records
- HR can accept, override or reject each recommendation

14 Reports — with PDF & Excel export

Employee Performance Department Report Manager Report KRA Completion

KPI Achievement Monthly Performance Quarterly Performance Annual Performance

Top Performers Bottom Performers Appraisal Report Increment Recommendation

Promotion Eligibility

15 Notifications

- Goal Assigned · Goal Updated · Goal Approved · Self-Assessment Due · Review Due
- Review Completed · Manager Feedback Available · Appraisal Generated · Promotion Recommended
- Delivered through your existing in-app and email notification system, permission-gated per role

16 Role-Wise Permissions

- **Admin** — Create KRA/KPI, Assign Goals, Final Approval, Full Reports
- **HR** — Create KRA/KPI, Assign Goals, HR Review, Full Reports
- **Manager** — Assign Goals, Manager Review, Limited Reports (own team)
- **Employee** — Self Assessment, Own Reports only
- Wired into the existing Roles & Permissions matrix as a new module row

Database. Thirteen new tables — performance cycles, KRA master, KPI master, employee KRA, employee KPI, self review, manager review, HR review, performance score, feedback, documents, history and notifications — all multi-tenant and business-scoped like the rest of your ERP.

MODULE B · TRACKERS

Three Operational Trackers

Three record-keeping registers with role-based access. Every one of them ships with an analytics view, Excel import and export, and Monthly / Date-wise / Yearly filters.

1 Break Sheet Tracker

- Employee Name — dropdown that auto-fetches the Employee ID
- Out Time and In Time — calendar and time picker
- Total Timing — calculated automatically from out and in time
- Break Type and Remarks
- Analytics — average break duration per employee, per department, longest breaks, daily totals

2 Diesel Tracker

- Serial Number / Code, Month, Date, Bill Number, Slip Number, Time
- Quantity and Amount with running totals
- Upload option for the receipt or slip — PDF or image — so every entry is backed by proof
- Monthly budget tracking overview — allocated vs consumed vs remaining
- Analytics — consumption trend, cost per litre movement, month-on-month comparison

3 Daily Visitor Tracker

- Date of Visit, Candidate / Visitor Name, Mobile Number
- Source — dynamic dropdown, HR can add new sources at any time
- Arrival Time and Purpose of Visit — dynamic dropdown
- Called By, Interview By and Availability Status
- Analytics — visitors by source, by purpose, by day, interview conversion view

Included with every tracker. Role-based access so only designated users see each register · Excel import for historical data · Excel and PDF export · Monthly, date-wise and yearly filters · search and sort on every column.

MODULE C • ENHANCEMENTS

System Modifications

Targeted changes to the running system, revised against your feedback. All four items are included in this price, and three more from your original list are already built and live.

INCLUDED IN THIS PRICE

1 Recent Activity Log — Super Admin Masking CONFIRMED REQUIRED

- Actions performed by the Super Admin display as “System Admin” in the Recent Activities log
- The existence of the Super Admin role is hidden from regular admins throughout the interface
- The real identity stays intact in the underlying audit record for compliance

2 Bulk Payslip Delete NEW — ADDED

- Select many payslips with checkboxes and delete them in one action — a whole month, a department, or any filtered set
- **Employee-wise delete** — remove a single employee’s payslip for a month without disturbing the rest of the run
- Built for the exact case you described — a payslip generated by mistake, or on a wrong calculation, so the month can be cleared and re-run cleanly
- Confirmation prompt stating exactly how many payslips will be removed, so nothing is deleted by accident
- Every deletion recorded in the audit log with the user, the count and the timestamp
- Payslips already marked **Paid** are protected and need an explicit admin override before they can be removed

3 Leave Balance Gate NO ADDITIONAL CHARGE

- An employee with no paid leave balance is blocked from submitting a leave request
- Clear message on the form showing the available balance per leave type
- Currently the system allows over-balance requests and lets HR decide the paid / unpaid split — this changes that behaviour
- **Provided free of cost as requested** — no amount has been added to the quotation for this item

One decision needed from you. Blocking leave when the balance is zero also stops an employee from applying for genuine **Leave Without Pay** — for example a medical emergency after balances are exhausted. We will build this as an **on / off setting** so HR can allow an LWP request as an exception, at no extra cost. Please confirm whether the block should be absolute or allow an LWP exception.

MODULE C • ENHANCEMENTS (CONT.)

Also Included & Already Delivered

ALSO INCLUDED — PREVIOUSLY DEFERRED

4 Combined Leave **NOW INCLUDED**

- Combining fractional balances across leave types in one request — for example 0.5 Casual + 0.5 Sick = one full day
- Correct deduction from both leave balances, with the split shown on the request and on the leave card
- Previously marked Future — **now brought into this scope and delivered inside the ₹23,000**

ALREADY BUILT — NO CHARGE

5 Delivered & Live Today **DELIVERED**

- **Budget Addition Trail** — mid-month top-ups recorded with the exact sanction date, amount, note and the admin who added them; the total increases from that date forward instead of appearing as if allocated on the 1st
- **Budget Edit & Delete** — authorised users can correct a mistyped amount or remove an individual top-up entry
- **Record Payment Receipt Upload** — PDF / JPG / PNG up to 5 MB beside Reference / UTR No., viewable from the payment list, detail and edit screens

02 • COMMERCIAL

What Is Covered By This Price

This proposal is priced as a **single package** at trusted-partner rates, not line by line. Everything listed on this page, the pages that follow and Page 13 is delivered inside the one figure shown on Page 12 — **all previously deferred items now included**. All figures in Indian Rupees. No extra taxes — the figure shown is all inclusive.

Module A • Performance Management (KRA / KPI)

16 FEATURES

Performance Cycles, KRA & KPI Masters	Cycle configuration, KRA master with weightage validator, KPI master with five measurement units and multiple KPIs per KRA	INCLUDED
Goal Assignment & Approval Workflow	Cascade and direct assignment, bulk assign, copy-forward, and the Employee → Manager → HR → Admin escalation trail	INCLUDED
Self, Manager & HR Assessment	Self assessment with evidence upload, manager rating on the 1–5 scale with recommendations, HR moderation and finalisation	INCLUDED
Scoring Engine, Bands & Rewards	Weighted final-score formula, six performance bands, optional bell curve and auto reward recommendations	INCLUDED
Per-Employee & Bulk Weightage Configuration REVISED	Formula and weightages configurable per department or per individual employee , editable in bulk and importable from Excel, with no code changes	INCLUDED
Admin & Employee Dashboards	Nine admin metrics with department comparison and top / low performers; five employee metrics with the performance trend graph	INCLUDED
Reports with PDF & Excel Export	Thirteen report types with filters, each exportable to PDF and Excel	INCLUDED
Notifications & Role Permissions	Nine automated alerts through the existing notification system, plus the four-role permission matrix	INCLUDED

02 • COMMERCIAL (CONT.)

Operational Trackers & System Enhancements

Module B • Operational Trackers

3 TRACKERS

Break Sheet Tracker	Auto employee-ID fetch, time pickers, auto-calculated duration, break analytics, import / export and filters	INCLUDED
Diesel Tracker	Full bill and slip fields, receipt upload, monthly budget overview, consumption analytics, import / export and filters	INCLUDED
Daily Visitor Tracker	Visitor and candidate log with dynamic source and purpose dropdowns, visitor analytics, import / export and filters	INCLUDED

Module C • System Enhancements

4 INCLUDED • 3 DELIVERED

Super Admin Masking	Activity log and interface display Super Admin actions as System Admin, audit record preserved	INCLUDED
Bulk Payslip Delete NEW	Bulk and employee-wise payslip deletion with confirmation, audit trail and protection for payslips already marked Paid	INCLUDED
Leave Balance Gate	Blocks leave application when no paid balance remains, with a configurable LWP exception — provided free of charge as requested	No charge

Record Payment Receipt Upload	Already built and live — PDF / JPG / PNG upload beside Reference / UTR No.	No charge

02 • COMMERCIAL (CONT.)

Documents, PDF Pack & Final Price

Module D • Documents & PDF Pack (full scope)

42 DOCUMENTS

Payroll & Statutory Pack 5 DOCS	Form 16 annual tax statement · PF / ESI / PT statutory register · Bank transfer advice · Salary register · Bulk payslip download for the whole company	INCLUDED
Attendance & Leave Pack 6 DOCS	Monthly attendance register / muster roll · Daily attendance report · Leave card with balance statement · Leave sanction slip · Regularization approval slip · Comp-off approval slip — now restored into scope	INCLUDED
Reports & Modules Pack 14 DOCS	Five HR report PDFs · Budget vs actual statement · Helpdesk report · CRM pipeline report · Report Builder PDF export · Reimbursement voucher · Requisition approval note · Service job card · Asset gate pass · Asset depreciation schedule — all five now restored into scope	INCLUDED
HR Letters Pack 9 DOCS · NOW INCLUDED	Appointment Letter · Confirmation Letter · Experience Letter · Relieving Letter · Salary Certificate with CTC annexure · Warning Letter · Show-cause Notice · Employee ID Card · Full & Final Settlement	INCLUDED
Sales & Finance Pack 8 DOCS · NOW INCLUDED	Sales Order · Payment Receipt · Goods Receipt Note · Delivery Challan · Customer Statement of Account · Vendor Statement · Stock Ledger · Credit / Debit Note	INCLUDED
Letterhead Foundation NOW INCLUDED	Shared letterhead and footer layout across every PDF, authorised-signature and company-seal upload, amount-in-words in Indian format, and DRAFT / PAID / CANCELLED watermarks	INCLUDED

Package Price — Modules A + B + C + D

₹ 28,000

Complete scope including every previously deferred item, as detailed on Pages 10 to 13

Less — Trusted-Partner Discount

— ₹ 5,000

Extended in view of the continuing working relationship

FINAL PAYABLE

Modules A + B + C + D · Nothing deferred · No extra taxes — all inclusive

₹ 23,000 /-

ANNEXURE · NOW INCLUDED

Previously Deferred — All Now In Scope

Everything on this page was earlier marked **Future** and kept out of the price. At your instruction it is all **back in scope and delivered inside the ₹23,000** — nothing here is held over or quoted separately.

Documents & PDF Pack — previously deferred, now included

23 DOCUMENTS · INCLUDED

Letterhead Foundation NOW INCLUDED	Shared letterhead and footer layout, authorised-signature and company-seal upload, amount-in-words in Indian format, and DRAFT / PAID / CANCELLED watermarks	INCLUDED
HR Letters Pack 9 DOCS · NOW INCLUDED	Appointment Letter · Confirmation Letter · Experience Letter · Relieving Letter · Salary Certificate with CTC annexure · Warning Letter · Show-cause Notice · Employee ID Card · Full & Final Settlement	INCLUDED
Sales & Finance Pack 8 DOCS · NOW INCLUDED	Sales Order · Payment Receipt · Goods Receipt Note · Delivery Challan · Customer Statement of Account · Vendor Statement · Stock Ledger · Credit / Debit Note. Earlier planned alongside the Garage Solutions ERP integration — now delivered with this project.	INCLUDED
Reports & Modules — 5 documents NOW INCLUDED	Reimbursement voucher · Requisition approval note · Service job card · Asset gate pass · Asset depreciation schedule	INCLUDED
Comp-off Approval Slip NOW INCLUDED	Restored into the Attendance & Leave Pack — the pack now carries six documents	INCLUDED
System Enhancements — previously deferred, now included		1 ITEM · INCLUDED
Combined Leave NOW INCLUDED	Combining fractional balances across leave types in a single request — for example 0.5 Casual + 0.5 Sick = one full day, with correct deduction from both balances	INCLUDED

The Letterhead Foundation is now part of this price. All 42 documents in Module D are therefore produced on the **full letterhead layout** — shared header, footer and page numbering, authorised-signature and company-seal upload, amount-in-words in Indian format and DRAFT / PAID / CANCELLED watermarks. There is no longer any document limited to the plain standard layout.

Already working today. The ERP already generates 16 PDFs at no additional cost — Quotation, Proforma and Tax Invoice, Expense Voucher, five business reports, Payslip, Appraisal Letter, Offer Letter, Recruitment Funnel Report and the three Asset registers. Six attach automatically to outgoing email.

03 • DELIVERY PLAN

Phases & Terms

The entire scope is delivered in **two weeks**. The seven phases below run back to back across those fourteen days, ending with testing, deployment and team training.

Phase 1 — Foundation & Masters**Days 1-2**

Database structure, performance cycles, KRA master, KPI master, weightage validator and the role permission matrix.

Phase 2 — Assignment & Workflow**Days 3-4**

Goal assignment by department, designation and employee; the Employee → Manager → HR → Admin approval trail with send-back and pending queues.

Phase 3 — Assessments & Scoring**Days 5-7**

Self assessment with evidence upload, manager assessment, HR review and moderation, scoring engine, performance bands, bell curve and reward recommendations — including the **per-department and per-employee weightage configuration with bulk edit and Excel import**.

Phase 4 — Dashboards, Reports & Alerts**Day 8**

Admin and employee dashboards, thirteen reports with PDF and Excel export, and the nine automated notifications.

Phase 5 — Trackers**Days 9-11**

Break Sheet, Diesel and Daily Visitor trackers with analytics views, receipt uploads, Excel import / export and all filters.

Phase 6 — Documents & PDF Pack**Days 12-13**

The Letterhead Foundation, then all forty-two documents — Payroll & Statutory, Attendance & Leave, Reports & Modules, HR Letters and the Sales & Finance pack — produced on the full letterhead layout with signature, seal, amount-in-words and watermarks.

Phase 7 — Enhancements, QA & Handover**Day 14**

Super Admin masking, bulk payslip delete, leave balance gate, Combined Leave, full testing across all roles, deployment and team training.

Everything stays in one system. The performance module scores against the attendance, penalty, warning and appraisal data your ERP already holds — no double entry, no separate login, no data export between tools. The trackers use the same employee master, the same roles and the same export engine as the rest of the platform.

04 · TERMS

Payment Terms & Approval

Payment is on simple 50-50 terms — half on confirmation to start the work, half once the work is completed and handed over. The final payable amount is **₹23,000** — a package price of ₹28,000 less a ₹5,000 trusted-partner discount, with every previously deferred item now included.

Payment Terms

ADVANCE — ON CONFIRMATION 50%	BALANCE — AFTER WORK DONE 50%
---	---

- No extra taxes — ₹23,000 is the all-inclusive final payable. All figures in Indian Rupees.
- Includes one round of UI feedback per module during development.
- Report formats, letter wording and dropdown values to be confirmed by the client before the relevant phase begins.
- The items listed on Page 13 were earlier deferred and are **now fully included in this scope and price**. Nothing in this proposal is held over to a future phase.
- All forty-two documents in Module D are produced on the full Letterhead Foundation — signature / seal upload, amount-in-words and watermarks included.
- Anything outside this document is treated as a change request and quoted separately.
- This quotation is valid for 30 days from the date shown.
